

Our stories of God's Grace

can reach into the hearts of those who would never enter a Christian church, listen to Christian broadcasting or pick up a Bible. For when they see in these stories our hope, love, joy, and peace, they will want the same.

And if written or recorded,

will enter places we will never go speak to people we cannot see work on our behalf while we sleep continue to witness after we're gone empower the poor and simple to speak to the hearts of the lofty and proud. is a legacy that may be shared among a thousand people without being divided

I w

because of a statement of an atheist scientist, I decided to read the Bible. By the end of the first four books of Moses, I realized that God is alive and is exactly who the Bible claimed him to be.

Three things happened. One, My life became a catalog of miracles. Two, I wanted to get on the roof-tops and shout to the world, "wake up! Jesus is Savior! Eternal life is available!" Three, I decided to write the miracles I had received, and was soon writing for others.

That's what this ministry is about, showing the Grace of God around the world through personal testimonies.

We offer materials, to assist others in writing and recording and distributing stories that honor God. Its my way of shouting from the rooftops.

FOR UNDERSTANDING

A testimony is like a doorknob. It is a very small device that can open a sanctuary, and by the power of God, remodel its interior.

It enters the secret alcoves of the heart, awakening the desire for God.
